URIEL AGUSTIN GROSSO

SOLUTIONS ARCHITECT

WORK EXPERIENCE

Cloud Architect

Supervielle | April 2024 - present

I am leading the bank's migration and transformation to the cloud. My role involves designing and implementing cloud infrastructure, ensuring seamless integration, and optimizing cloud solutions to enhance efficiency and scalability. I collaborate with cross-functional teams to develop cloud strategies and address security and compliance requirements, facilitating a smooth transition to the cloud.

Solutions Architect

BigCheese | May 2023 - April 2024

I work with clients from the public and commercial sectors in Uruguay, Peru, and Argentina. My focus is on designing, implementing, developing, migrating, and continuously improving cloud solutions using AWS. My goal is to help organizations achieve their business objectives through effective adoption of AWS and the implementation of innovative solutions.

Solutions Architect

Amazon Web Services | May 2022 - May 2023

Central Solutions Architect for the Worldwide Public Sector in the Latin America, Caribbean, and Canada region (LCC - SOLAPS). Supporting clients in the national and local state government, healthcare, education, energy and public services sectors, as well as our partners in implementations and migrations.

Cloud Infrastructure Specialist

IBM - Kyndryl | February 2021 - May 2022

Infrastructure Specialist for the Public Cloud team. We work with clients in Latin America designing and managing solutions based on AWS, Azure and IBM Cloud.

Cloud Administrator

Accenture | December 2020 - February 2021

Cloud Administrator for the AI & Cloud Managed Services team, we worked together with the teams from Argentina and India. In this role I was able to make use of the different cloud technologies, as well as the services of the different providers, such as AWS, Azure and GCP.

Cloud Technical Pre-Sales Intern

IBM | October 2019 - December 2020

As an intern, I did shadowing to experts in the Cloud Platform area for the role of Technical Seller.

I developed cloud architecture skills as well as different associated technologies and also reinforced soft skills such as make and give presentations or workshops to clients.
